A month of discovery & celebration

**GANDHI JAYANTI**

## Little actions, big ideas

**Chhote Kadam, Badi Soch**

Children embarked on a five-day experiential journey through Gandhi's values. As **Salt Detectives**, they observed and investigated. The **Courage Trail** encouraged them to persevere and keep trying.

The **Unity Web** brought teamwork to life. In the **Peace & Kindness Lab**, children practised sharing, empathy and peaceful conflict resolution.

Through **Repair and Reimagine**, waste became useful creations, introducing responsible living through hands-on discovery.

"One little action can become a big change."

JUNIOR KG ASTER CLASS ASSEMBLY

# The mystery of the missing air

**Gayab Hui Hawa Ka Rahasya**

Our Junior KG stars presented an engaging play on **air**, exploring why it matters, the harmful effects of air pollution and ways to keep it clean.

Confident performances and an inspiring anthem brought environmental care to the stage. The children reminded us that every small step towards cleaner air matters.

## A heartfelt thank you

To our parents: your encouragement, cooperation and enthusiasm helped make this assembly a success.
