

IMPORTANT NOTICE

Dear Parents,

Greetings!

It is very disheartening that despite all our efforts to equip our students with the best learning environment, some students are compelled by you to attend tuitions after school. This compulsion renders the children completely incompetent and takes away their self-confidence and faith in themselves.

As parents you cannot shed away the responsibility of nurturing these young lives in the best way that you can. Sending children for tuitions is a sad example of this.

As their school, we have taken responsibility of providing them not only the best academics but also opportunities to shine in sports, music, dance etc. But without your desire to support your children, it is difficult..

We urge mothers to ensure daily follow up and revision of work done at school.

Therefore, we request you to completely stop sending them for these extra tuition classes and find time to monitor & support them on a daily basis.

We are ready to help you devise the right plan. In case of doubt you may approach us.

Looking forward to your support

Regards
