IMPORTANT ADVISORY-STUDENTS' BAGS

Dear Parents,
Greetings!
Please note

The weight of school bags carried by our children has become a matter of concern. We have observed that many children are carrying books and notebooks that are not required as per the day's timetable, along with extra stationery and other items that add unnecessarily to the weight of their bags.

We request parents to please check your child's school bag regularly and ensure that only the books, notebooks and materials required for the day are carried. Children should also be gently guided to avoid bringing fancy or unnecessary stationery items to school.

This is not merely about keeping the bags light—it is about helping our children develop the important habit of being organised, mindful and responsible about what they carry.

A little attention at home can make a significant difference to their comfort and well-being at school.

We look forward to your support in the same

Warm regards,
Principal
