08 July, 2026

Dear Parents

We at DPS, have always striven to provide numerous opportunities to students for personal and academic growth. The Green Olympiad is one such challenge where students can apply their knowledge creatively and think critically, deepening their understanding of subjects beyond the standard curriculum.

Initiated in 1999, the GREEN Olympiad is one of the flagship programs of TERI, renowned for its prestige and impact. The 2026 Green Olympiad, scheduled for October 8, 2026 is designed to test students' knowledge of environmental and sustainable development issues innovatively and engagingly. This prestigious exam reaches nearly 2000 schools annually, both in India and abroad, aiming to sensitize and build students' capacities in environmental awareness, sustainability, and green skills.

The GREEN Olympiad covers a broad range of topics, including water, waste, energy, air, biodiversity, climate change, global warming, sustainable development, culture, green skills, and current environmental affairs. The examination consists of multiple-choice questions that evaluate students' knowledge, application, and analytical skills while spreading awareness through informative content. There is no negative marking, and students will take the paper-based exam within their school premises.

Important Information for GREEN Olympiad 2026:

|                            |                       |
