

OBJECTIVES OF HUBs

The linking of schools into Hubs of learning would provide a common and shared platform with the objective to

1. Create a culture of support and healthy interdependence across different areas of teaching learning viz, curriculum planning, teaching learning activities and other school practices

2. Promote solidarity by facilitating joint conduct of various student/staff activities culminating in an enriched school life

3. Provide an opportunity to share a repertoire of ideas, instructional and assessment strategies which would help individual teachers to improve classroom practices and contribute to their continuous professional development

4. Enable sharing of resources: manpower, infrastructure, teaching-learning material etc.
