

DELHI PUBLIC SCHOOL, CHANDIGARH

Advisory Regarding Safe Transportation of Students

Dear Parents

In keeping with the school's unwavering commitment to child safety, all parents are once again advised not to engage unauthorized vans, autos, e-rickshaws, or any other unregistered and unverified modes of transport for commuting their wards to and from school.

The school strongly discourages and strictly prohibits the use of such unauthorized vehicles, as they often do not comply with the safety norms and regulations prescribed for the transportation of children.

Parents are requested to ensure that their wards travel only through School Bus, Parent-driven vehicles, verified and approved private transportation arrangements that comply with applicable safety regulations.

The school reserves the right to seek transportation details from parents and may take appropriate measures in cases where students are found commuting through unsafe or unauthorized means.

We seek your wholehearted cooperation in ensuring that every child travels safely and securely. Together, let us uphold the highest standards of care and responsibility towards our children.
