

# DELHI PUBLIC SCHOOL, MOHALI

## CLASSES III–V

Date:01-10-2026

*Small Hands, Big Impact!*

Dear Parents

*“The Earth is what we all have in common.”* 

As part of our ongoing journey towards understanding the **Sustainable Development Goals (SDGs)**, we are organising a special experiential learning activity for students of **Classes III to V** on the theme **“Our Planet, Our Responsibility.”**

The activity aims to nurture **environmental awareness, responsible choices and sustainable habits** among our young learners. Through creative, hands-on tasks, students will explore how simple actions can make a meaningful difference to our planet.

### Class-wise Activities

| Class | SDG Focus                                                                                                                         | Activity                                        | Student Activity                                                                                                                                                             |
|-------|-----------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| III   |  <b>Responsible Consumption &amp; Production</b> | <b>“Waste to Wonder”</b>                        | Students will bring clean waste materials such as cardboard, paper, plastic bottles and bags and transform them into a useful or creative product.                           |
| IV    |  <b>Climate Action</b>                         | <b>Climate Champions</b>                        | Students will explore the causes and effects of climate change and create posters/slogans to raise <b>awareness about</b> highlighting simple actions to protect the planet. |
| V     | Our Earth Our Responsibility                                                                                                      | <b>Plant a Promise, Grow a Greener Tomorrow</b> | Children will draw a large tree on the sheet and complete the sentence on a leaf- I will protect nature by.....                                                              |

### A Step Towards a Greener Tomorrow

These activities will encourage our children to think sustainably, act responsibly and inspire others. We encourage parents to support their children by helping them collect safe, clean and reusable materials as required. Please ensure that the materials are child-friendly and do not involve any sharp, hazardous or harmful objects. Let us join hands to nurture a generation that cares for the Earth, values its resources and believes in responsible action.

 *“Be the change. Make every choice count.”* 

Regards,
