## **KAMPTEE ROAD, NAGPUR**

### **EXPLORING THE PARTS OF A BICYCLE AND A CAR**

**12<sup>TH</sup> MARCH, 2026**

The students of Nursery participated in an engaging learning activity where they explored the parts of a car and a bicycle through fun play and observation. The activity aimed to encourage curiosity and help young learners understand basic components of common vehicles in an interactive manner.

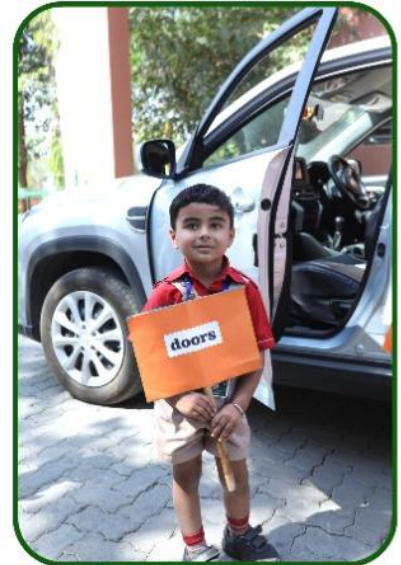

The teachers introduced the students to different parts such as wheels, handle, seat, pedals and brakes. The children were encouraged to observe, touch and name each part, making the learning process lively and meaningful. Through this hands-on experience, the students also began to understand how these parts help a vehicle move and function.

The activity was both enjoyable and educational, allowing the little explorers to learn through discovery and play. It sparked curiosity among the students and helped them develop early observation and vocabulary skills.
