

DELHI PUBLIC SCHOOL KAMPTEE ROAD, NAGPUR

WORLD PHOTOGRAPHY DAY

19TH AUGUST, 2026

Delhi Public School Kamptee Road, Nagpur organised an engaging Photography Session for the students of Grade VIII on the occasion of World Photography Day. The session aimed to introduce the students to the fundamentals of photography and encourage them to explore photography as a creative form of expression.

The session was conducted by Mr. Rishabh Sharma and Mr. Devavrat Kulkarni, who introduced the students to different types of photography and explained the importance of composition in creating visually appealing photographs. The students were also introduced to the basics of the exposure triangle, helping them understand the role of aperture, shutter speed and ISO in photography.

The session concluded with a hands-on photography activity, where the students applied the concepts they had learnt and experimented with composition and exposure. The interactive experience encouraged creativity, observation and technical understanding, making the session informative, practical and enjoyable for the students.

WORLD
PHOTOGRAPHY
DAY

The students of Grade VIII celebrated World Photography Day through an engaging photography session that introduced them to different types of photography, creative composition and the basics of the exposure triangle. The hands-on activity gave students an opportunity to apply their learning while exploring creativity, observation and visual storytelling, making the session informative, practical and enjoyable.
