

DELHI PUBLIC SCHOOL KAMPTEE ROAD, NAGPUR

DUSSEHRA ACTIVITIES

GRADES: I AND II

21ST OCTOBER, 2026

Delhi Public School Kamptee Road, Nagpur, organised a series of engaging and intellectually stimulating activities to commemorate the auspicious festival of Dussehra. The young students of Grades I and II participated with great zeal and enthusiasm in two thoughtfully designed activities, Find and Count and Solve the Maze, which seamlessly blended festive fervour with experiential learning.

The Find and Count activity encouraged students to identify, count and colour festive symbols depicted on worksheets featuring Ravana, thereby enhancing their numerical proficiency and visual perception. The Solve the Maze activity offered an intriguing challenge, wherein the students navigated their way through a maze to assist Lord Rama in rescuing Mata Sita. The learners further embellished the illustrations with vibrant colours, giving expression to their creativity and artistic sensibilities.

Both activities provided a meaningful blend of learning and celebration, fostering observation, logical reasoning, problem-solving abilities and fine motor coordination among the young students. Moreover, they familiarised the students with the cultural and spiritual significance of Dussehra, reinforcing the timeless values of courage, righteousness and perseverance. The celebration culminated in a profound lesson that continues to inspire generations: the ultimate triumph of good over evil.
