STICK PATTERN MATCHING ACTIVITY

3RD NOVEMBER, 2026

Delhi Public School Kamptee Road, Nagpur organised an engaging Brain Gym activity titled 'Stick Pattern Matching' for the young learners. The activity aimed to enhance concentration, visual perception, hand-eye coordination and fine motor skills through a fun and interactive learning experience.

The students enthusiastically used coloured sticks to create and match different patterns by placing the sticks according to the given designs. The hands-on activity encouraged them to observe carefully, identify patterns and arrange the sticks accurately, making learning enjoyable and meaningful.

The activity helped the students improve their focus and attention while developing visual discrimination, pattern recognition and logical thinking. It also strengthened their fine motor skills and encouraged problem-solving abilities through active participation.

The Stick Pattern Matching activity provided a stimulating learning experience that combined play with cognitive development. It successfully nurtured observation, concentration and creativity among the young learners while making the learning process engaging and enjoyable.
