TRIANGLE WARLI ART ACTIVITY

3RD NOVEMBER, 2026

Delhi Public School Kamptee Road, Nagpur organised a delightful art activity titled Triangle Warli Art – From Shapes to Masterpieces! for the students of Grade Pre-Nursery. The activity provided the young learners with an opportunity to explore traditional Warli art using basic geometric shapes such as triangles and circles.

Stepping beyond their classrooms, the activity was thoughtfully conducted on the lush green lawns, where the students enjoyed the warmth of the winter sun while engaging in a creative outdoor learning experience. With gentle guidance from their teachers, the little artists explored how simple triangles and circles could be transformed into beautiful human figures, objects and patterns inspired by traditional Warli art.

The activity beautifully integrated Mathematics with Art, helping the students recognise geometric shapes and understand their creative possibilities. As they experimented with different shapes and patterns, they enthusiastically expressed their imagination while enhancing their fine motor skills and artistic abilities.

The Triangle Warli Art activity proved to be a joyful blend of experiential learning, artistic expression and nature. It encouraged creativity, observation and exploration, allowing the young learners to discover how simple geometric shapes could blossom into beautiful masterpieces.
