

MATA BHATEE DEVI

A Recognized Sr. Sec. School

MBDPS/2025-26/CC107

Parental Circular for Grade: VIII - IX

Friday, October 10th

Dear Parent,
Greetings!

"Every Recycled Creation Is A Step Toward A Greener, Brighter Future."

As part of our Transforming Tuesdays initiative, the school is organizing an **Eco-Friendly Craft Activity** for Grades VIII & IX on **October 14th, 2025**.

The activity aims to foster creativity, innovation, and environmental consciousness by encouraging students to design useful and decorative items using waste and recyclable materials. This initiative will help students understand the value of sustainability while exploring their artistic potential.

Guidelines for Parents:

- ✚ Kindly encourage your child to collect and bring simple, safe, recyclable materials (such as newspapers, cardboard, bottles, fabric scraps, etc.) to school.
- ✚ Ensure that your child carries the required materials neatly packed and labeled on the day of the activity.
- ✚ Motivate your child to participate actively and showcase creativity during the session.

Kind Attention: - Selected creations will be displayed on the school campus and featured on the school's official social media pages along with awarding Certificates of Excellence to the winners.

Let us nurture in our children the values of creativity, responsibility and care for the environment.

Warm Regards,

PRINCIPAL
