

# MATA BHATEE DEVI

A Recognized Sr. Sec. School

MBDPS/2025-26/CC0182

Parental Circular for Grade: VI - VII

Friday, January 30<sup>th</sup>

Dear Parent,  
**Greetings!**

*'Science Is Not Just A Subject—it Is A Way Of Thinking, Questioning  
And Understanding The World Around us.'*

As part of our **Transforming Tuesdays** initiative, Mata Bhatee Devi School consistently plans activities that foster curiosity, creativity and conceptual understanding among students. Science education extends beyond textbooks; it encourages learners to observe, analyze and connect ideas with real-life applications, thereby nurturing a scientific temperament from an early age.

In alignment with this vision, the school is organizing a **Collage Making Activity** titled **“Science Spectrum”** for students of Grades VI & VII on **February 3<sup>rd</sup>, 2026**. Through this activity, students will creatively depict scientific concepts, discoveries, or themes using visuals and materials of their choice. The activity aims to enhance conceptual clarity, creativity and presentation skills while making learning engaging and meaningful.

#### **Guidelines for Parents:**

- ✚ Kindly help your child understand the given science theme and plan relevant ideas.
- ✚ Encourage the use of creative materials such as drawings, charts, magazines, or recycled items.
- ✚ Please ensure your child's presence and enthusiastic participation on the day of the activity.
- ✚ Glimpses of the event will be shared on the school's official Instagram & Facebook pages.

**Kind Attention:** - The winners will be awarded with Certificate of Appreciation.
