

MATA BHATEE DEVI

A Recognized Sr. Sec. School

MBDPS/2025-26/CC0182

Parental Circular for Grade: VIII - IX

Friday, January 30th

Dear Parent,
Greetings!

*'Mathematics Is Not Just About Numbers—It Is About Patterns, Creativity,
Logic And Seeing Beauty In Structure.'*

As part of our **Transforming Tuesdays** initiative, Mata Bhatee Devi School consistently designs meaningful learning experiences that encourage critical thinking, creativity and deeper conceptual understanding. Mathematics, beyond formulas and calculations, enables students to recognize patterns, analyze relationships and appreciate the elegance and logic inherent in structure.

To nurture this creative and analytical approach, the school is organizing an **Interactive Mathematics Art Activity** for students of Grades VIII & IX on **February 3rd, 2026**. The integration of mathematics and art will help learners visualize abstract ideas, strengthen problem-solving skills and develop a positive and confident attitude towards the subject.

Guidelines for Parents:

- Kindly support your child in understanding the given mathematical theme and planning innovative ideas.
- Encourage the use of creative materials such as colored papers, rulers and compasses.
- Please ensure your child's presence and enthusiastic participation on the day of the activity.
- Glimpses of the event will be shared on the school's official Instagram & Facebook page.

Kind Attention: - Outstanding performances will be recognized with the Certificate of Appreciation.
