to do.

Mrs. Usha Chopra
Chairperson

MESSAGE FROM

The Chairperson's Desk...

Dear students,

As you prepare to step beyond these gates, remember—education was never meant to hand you all the answers. It was meant to sharpen your curiosity, to help you ask better questions, and to give you the courage to walk through uncertainty with purpose. You belong to a time of astonishing change, where brilliance is measured not only by what you achieve, but by what you contribute. Let your learning not end with your exams; let it continue in the way you observe, feel, and respond to the world around you. In your pursuit of success, pause often. Notice beauty in ordinary things. Listen before you speak. Be kind even when no one is watching. These quiet choices will shape your legacy more than any grand triumph ever could. May you carry from here not just knowledge, but discernment. Not just ambition, but empathy. And above all, a faith in your own ability to bring light wherever you go. The journey ahead is yours to write—make it thoughtful, make it brave, make it true.

Mrs. Usha Chopra

Chairperson

New Era Public School

Mr. Rohit Chopra
Director

MESSAGE FROM

The Director's Desk...

"Education is the most powerful tool which enables an individual to grow in mind, body, and spirit."

At New Era Public School, we believe that education flourishes when mind, body, and spirit grow in harmony. Physical fitness and sports form the cornerstone of this balance — cultivating endurance, discipline, and teamwork. These qualities not only shape character but also foster a positive attitude that enhances academic excellence and personal growth.

In an era that values innovation and expression, we aim to nurture confident communicators and critical thinkers — learners who can reason independently, articulate ideas effectively, and approach challenges with clarity and purpose.

Equally vital to this journey is the partnership between the school, parents, and the wider community. Together, we create an environment where every child feels supported, inspired, and empowered to achieve their fullest potential. When home and school work in unison, education transcends classrooms and becomes a lifelong pursuit of learning and growth.

Let us continue to guide our children towards a future defined by health, intellect, empathy, and purpose.

My compliments to the teachers, students, and editorial team for their commendable efforts. Best wishes for continued excellence and new achievements.

Wishing everyone continued success in all future endeavours.

Rohit Chopra
Director
New Era Public School, Dwarka

Dr. Priti Ramendra
The Head of School

MESSAGE FROM

The Head of School

"The happiest students are not those who learn the most, but those who love learning the most."

At New Era Public School, Dwarka, the laughter, curiosity, and bright smiles of our students are the heartbeat of our campus. Their joy in learning reminds us that education is most meaningful when it is experienced with enthusiasm and passion.

Our teachers are the soul of this journey. They nurture both minds and hearts, building trust and care that transform the school into a second home, where every child feels valued and encouraged to grow.

Learning here is vibrant and engaging. Through our philosophy of doing to learn, students explore beyond classrooms, excelling in academics, innovation, and sports at state and national levels, while developing resilience, leadership, and integrity.

We take equal pride in nurturing morally upright, compassionate individuals — young people who will lead with empathy and integrity. This vision is strengthened by our supportive parents, our dedicated management, and our community's enduring faith in the values that define New Era.

Our annual magazine, Meraki 2025–26, is a celebration of all these moments — a reflection of our shared dreams, achievements, and aspirations. It captures the rhythm of school life, the creativity of our students, and the passion of our faculty.

With immense joy and pride, I present this edition of Meraki, a heartfelt tribute to the vibrant spirit of the New Era family — where every day is a step towards learning, laughter, and limitless possibilities.

Dr. Priti Ramendra

Head of School

New Era Public School, Dwarka

With Purpose and Passion:

The Head Boy Speaks

Dear teachers, students and members of our school community,

As I sit down to write this message, countless memories from the past year flood my mind — moments of laughter in the corridors, quiet concentration during exams, and the shared sense of pride that binds us as one community. Being entrusted with the role of Head Boy has been one of the most humbling and enriching experiences of my life. It gave me the chance to not just represent, but to truly understand what makes our school so special — its people, its spirit, and its unwavering belief in growth.

The academic year 2025–26 has been a remarkable journey of transformation. We've witnessed not just academic progress, but personal growth that extends far beyond textbooks and classrooms. Each celebration, each event, each challenge, and each success has reminded us that learning is not confined to just lessons — it lives in every experience, every interaction, and every act of kindness we share. This year, our school focused deeply on developing resilience, conformity, and social empathy — qualities that today's world demands more than ever. One of the themes that resonated most with me this year was the idea of balance. Balancing ambition with rest, effort with self-care, and individuality with teamwork. We often talk about success, but rarely about well-being, which is just as important. I want to remind my fellow students: it's perfectly fine to slow down, to breathe, and to take care of your mental and emotional space. Growth is meaningful only when it is healthy and sustainable. Our school's ethos — Integrity, Inclusion, and Innovation — has guided us at every step. Integrity keeps us grounded in values, inclusion ensures every voice is heard, and innovation helps us reimagine what's possible. These principles are not just words on our walls;

they are the pulse of our community. They remind us that education is not just about grades, but about character — the kind that stands firm in honesty, empathy, and perseverance. To our teachers and mentors, I owe my deepest gratitude. You have been our anchors — patient when we faltered, generous with wisdom, and relentless in your belief in us. To my peers, thank you for making this year unforgettable — for every shared laughter, every debate, every challenge accepted, and every small victory celebrated together, you've all pushed me to be my best version this past year and helped me in ways I couldn't even imagine, so I present my deepest gratitude to you, to everyone who has shown me what true teamwork and friendship means.

As I was preparing to pass on this responsibility, I was filled not with nostalgia alone, but with hope. Hope that our school will continue to nurture curious minds and compassionate hearts. Hope that we will all step into the world as individuals who dare to dream, but also care deeply. Let us carry forward the lessons we've learned — to lead with empathy, to act with courage, to assist others in need, and to never stop learning. The end of a session is not a conclusion, but a continuation of purpose — a reminder that every new beginning is built upon the values we uphold. As I conclude my journey in this school I have one last thing to say, I hope you all enjoy yourselves to the fullest whilst also working towards our collective goal of a better environment for the future generations to come, and I hope that each one of you will make the school environment even more nurturing, enjoyable, and full of valuable lessons than it was for you and me. With this I thank each and every member of our prestigious institution who has shaped me into the person I am now.

May our future be full of unimaginable possibilities, unbreakable dreams and dedication.

Hemant Godara
Head Boy

With Courage and Compassion:
The Head Girl Speaks

As I reflect on my tenure as Head Girl of New Era Public School, Dwarka, I am filled with a mix of emotions - pride, gratitude, and a sense of accomplishment. Serving as the leader of the student council was an incredible experience that taught me valuable lessons, helped me develop new skills, and allowed me to make a positive impact on my school community.

I have always been proud to be a part of New Era Public School, Dwarka, which has consistently excelled in academics, providing us with a strong foundation in various subjects and nurturing our intellectual curiosity. The school's emphasis on academic excellence has always motivated me to work hard and strive for better. I'm grateful for the guidance and support of our dedicated teachers, who have helped me grow both personally and academically.

As Head Girl, I had the opportunity to interact with our school's esteemed guests, including the Director Sir and other dignitaries. These interactions taught me the importance of effective communication, confidence, and respect for others. I learned to articulate my thoughts clearly, listen actively, and respond thoughtfully.

Being the Head Girl also meant being a role model and a leader who inspires others. I strived to lead by example, demonstrating values such as kindness, empathy, and integrity. I encouraged my fellow students to participate in various activities, take on new challenges, and push beyond their comfort zones. I believe that every student has a

unique talent or skill, and it was my privilege to help them discover and nurture it.

Throughout my tenure, I was fortunate to have the support of my teachers, friends, and family. They encouraged me to take on new challenges, offered valuable advice, and helped me grow both personally and professionally. I am grateful for their trust and confidence in me.

As I look back on my experience as Head Girl, I realize that it was not just a title or a position - it was an opportunity to make a difference and leave a lasting impact on my school. I hope that my successor will continue to uphold the values and traditions of our school and take it to even greater heights.

I'm proud to say that our school has excelled not only in academics but also in sports. Our students have made their mark in various sports like tennis, shooting, basketball, football, and cricket, showcasing their talent and dedication. The discipline, teamwork, and sportsmanship our students display on the field are truly commendable. I encourage all students to explore their sporting interests and push themselves to achieve greatness.

I hope that my experiences and reflections will inspire and motivate you to strive for excellence in your chosen pursuits. Whether you're a student, parent, teacher, or simply someone who's interested in our school community, I wish you joy, growth, and fulfillment in all that you do. May you find inspiration in our stories and achievements, and may you be motivated to reach new heights.

Moments of Reflection and Celebration....

"Legacy of Light: Celebrating Our Founders"

The Founders' Day began with a sacred hawan, filling the air with peace and devotion. Melodious songs and graceful dances followed, celebrating our founders' vision with joy and reverence.

"Green Hearts, Greener Earth"

On Earth Day, students renewed their promise to nurture the planet through awareness drives and sustainable acts. A thought provoking skit in the special assembly echoed a timeless truth — small steps today can blossom into a greener tomorrow.

In whispers of wind and songs of rain,
We pledge to let the Earth breathe again.

"Hands that Shape Our World"

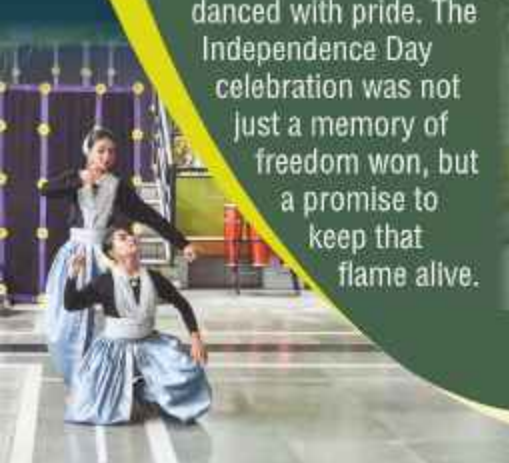

Labour Day was celebrated on 1st May with gratitude as students honoured the support staff with songs, cards, and warm words. The day taught us that every hand that works with honesty is worthy of respect.

"Shram hi shakti hai, shakti hi samridhi."
(Work is strength, and strength is progress)

"Tiranga hamari pehchaan, Bharat hamari shaan."

The morning sky glowed with the Tiranga, each colour telling a story of courage, peace and sacrifice. Students sang patriotic songs and danced with pride. The Independence Day celebration was not just a memory of freedom won, but a promise to keep that flame alive.

"Celebrating the Divine Leela"

The Janmashtami celebration radiated devotion and grace as students brought "Krishna ki Chetawani" to life, echoing Lord Krishna's call to righteousness. Tiny Radhas and Krishnas charmed all, while a joyful mother-child ramp walk added warmth to a day beautifully blending *shakti* and *bhakti*.

A Day of Gratitude and Grace

With melodies of gratitude and rhythms of joy, students of Class XII paid a soulful tribute to their mentors. The Teacher's Day celebration bloomed with music and dance, honouring those whose wisdom lights the path of every growing mind.

Project Presentations

Classes LKG to V actively engaged in learning by doing, embracing the spirit of experiential learning through creative and hands-on activities.

**"REvive NArrate
InSSpire AND CElebrate...
That's Renaissance!"**

The stage came alive with **colors and light**,
Young minds shining, creative and bright...
Green Glam, **Math Relay**, and **Nature's Palette** too,
Navras, **Cinequest**, and stories **Between the Lines** grew...
Swaranjali sang, **ExaggerArt** inspired,
Eco Toy Challenge sparked ideas admired...
A festival of **innovation, art, and cheer**,
Where every talent found its moment here...

**"A Tryst
With Future-
Annual Day
Celebration"
(Seniors)**

**Junior
Annual Day-
"Where Little Dreams
Take Flight"**

The students of Kindergarten and Classes I and II brought to life the timeless tale **'The Pied Piper of Hamelin'**, transforming the stage into a mesmerizing spectacle of colour, music and emotion.

"Udyatam:
The Spirit,
The Speed, The Glory"

The **Torch was lit**, courage shining bright,
The **Bamboo Drill** moved with grace and might.
Every leap, every cheer, every joyful score,
A celebration of teamwork, pride, and more.

**Together
We Compete,
Together We Rise:
The Inter-House
Spirit...**

Threads of Our Heritage..

Students from Classes III to XII showcased their knowledge of India's rich culture and traditions in a spirited Heritage Quiz that celebrated the nation's vibrant heritage.

The Power of Persuasion...

With wit as their weapon and reason as their shield, eloquent voices from Classes IX to XII debated on the topic 'Artificial Intelligence is a risk to the future of humanity'.

Equations in Motion

Numbers danced, patterns sang, and logic wrote its own melody as students from Classes III to XII competed in the Inter-House Math Quiz. Minds raced faster than time, solving puzzles and equations with precision and flair.

"From Screen to Scene: Lessons in Motion"

A movie outing to Sitaare Zameen Par taught students meaningful lessons in compassion, empathy, and valuing individuality.

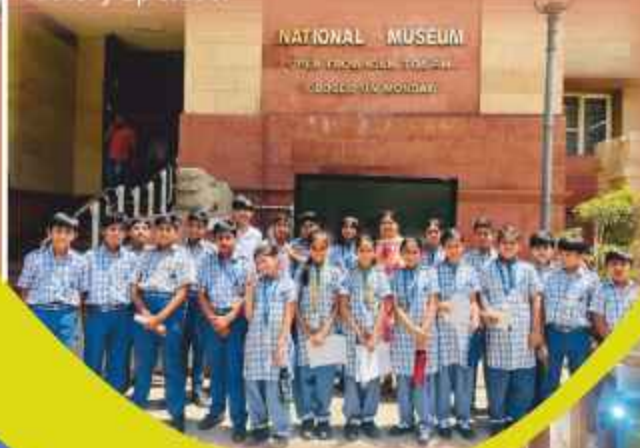

**Student Travels –
"Exploring,
Experiencing,
Educating"**

"Where History Comes Alive..."

At the National Museum, students delved into India's culture and heritage, experiencing history up close.

A Divine Day at ISKCON...

Students of LKG and UKG visited the ISKCON Temple, offering prayers and experiencing a joyful touch of faith and devotion.

Pathways to Possibilities

The Career Fair inspired students to explore new horizons and discover their true potential.

Tiny Shoppers' Delight

The students of LKG and UKG had a fun visit to a departmental store, exploring and learning in a playful way.

"From Ideas to Impact"

"Students visited NSUT's Incubation Centre, exploring startups, innovation, and entrepreneurship, and were inspired to transform ideas into real-world solutions."

"Celebrate Diwali not Pollution"

Students campaigned for a cleaner, safer and greener environment through the 'No Cracker Campaign', spreading awareness about the importance of celebrating Diwali responsibly.

"Inspire... Impact... Interact..."

Sparks of Innovation: School Innovation Council

The SIC Inspires students to think creatively and share ideas through the Inspire Idea Box, fostering Innovation and entrepreneurship.

The students of the Interact Club attended Navodaya, organised by the Rotary Club, where they were motivated by Professor Anand Kumar (Super 30), Miss India 2023 Ms. Nalini Gupta, and Kargil veteran Ms. Kavya Singh, leaving every young mind inspired and empowered.

Pride and Discipline: NCC

Our Junior Division NCC unit trains students in leadership, patriotism, and service, opening doors to national camps and future opportunities.

"Hands That Serve, Hearts That Lead"

Maitri, The Interact Club, in cooperation with the Rotary Club, empowers students to engage in community service, leadership, and social initiatives with enthusiasm and purpose.

Mindful Me- A Step Towards Well-being...

Our school celebrated Mental Health Week in sync with World Mental Health Day. The week highlighted the spirit of NEP 2020 and NCF-SE 2023, fostering holistic well-being and the importance of a healthy mind for a happy life.

Skill-It-Up Sessions...

"Money Matters: Financial Wisdom for Teachers"

In collaboration with CBSE and Jeevitam, a **Financial Literacy Workshop** enlightened teachers on smart money management and responsible financial practices.

Preparedness is power-
The Disaster Management Workshop empowered participants to act wisely and calmly when nature tests resilience.

A POCSO Awareness Workshop was conducted for teachers to reinforce the understanding of child protection laws and ensure a safe, supportive environment for every student.

Workshops that Shaped Minds...

Moral Mastery: Nurturing honesty, respect, empathy, and responsibility in every student.

Where education meets values
NEPS Dwarka

Social Skills Spark:
Boosting communication, teamwork and personality prowess of the students.

"Inhale Peace, Exhale Stress"

A Holistic Well-being Workshop was conducted to help students embrace balance, mindfulness, and positivity.

"Safety First, Always!"

The school conducted a **Safety Drill**, training students to respond promptly and responsibly in emergencies, highlighting the importance of vigilance and preparedness.

**Sweat,
Strength &
Success..
"Vaulting to
Victory"**

Reyan shone at the Artistic Gymnastics Nationals, finishing Top 8 in Floor, 9th in Vault, and helping Delhi Junior Team secure 6th place.

Reyan vaults to glory, clinching Silver in the Under-17 Boys' Vault at the CBSE National Gymnastics Championship!

Navya Chaudhary (X) bagged 3rd Position (Team Event) in 10m Air Pistol.

"Bullseye Brilliance"

Dakshesh Chaudhary (VII), **Arsh Prasad** (X) and **Arnav Siwag** (XII) clinched Bronze in the Under-19 Boys' category at the CBSE Cluster Championship.

Reyan Shines at Khelo India:
Reyan Rawat (Class X) clinched Bronze in the Vault Event at the Khelo India Youth Games, bringing pride to NEPS.

Lavanya's Stellar Gymnastics Feats

Lavanya Attri (X) flips her way to 6th place at the Junior All-Round Gymnastics Championship, Pune, with a Rs.1,500 cash prize.

JUNIOR & SENIOR

ARTISTIC GYMNASTICS NATIONAL CHAMPIONSHIP

Lavanya shines at the CBSE National Gymnastics Championship, Shirdi, Maharashtra, winning 2 Bronze medals on Floor and Beam.

Jitin Yadav (XI) secured a Bronze Medal in Rifle and later clinched Gold in the Delhi State Inter-School Championship.

Vaasvi Rajput (X) won Silver in the NR Pistol Sub Youth Women category at the Delhi State Inter-School Shooting Championship.

Neelanshi Prashar (X), **Anuga Sharma** (XI) and **Diyanshi Yadav** (XI) secured 2nd place in the Under-19 Girls' Air Pistol Team event.

**"Smash, Serve,
Score:
Champions on
the Court"**

Our Tennis stars ruled the court with skill and spirit at the CBSE XX Central Zone Tennis Championship 2025.

Eshanya Khattar (X), Ananya Nagar (XI) and Manshi Singh (XII) clinched the Silver Medal in the Under-19 Girls' category.

Mehr Muralidass (IX), Varunika Udar (IX) and Paaavni Bisht (XI) emerged Runners-Up in the Girls' category.

Their victories stand as a testament to teamwork, precision, and relentless pursuit of excellence.

Hridhaan Singh Mehta (XI), Harsh Nandal (XI) and Niraanjan Singh (XII) clinched the First Position in the Under-19 Boys' category.

Manshi Singh- The Rising Tennis Star
Manshi Singh (XII) recently won the Silver Medal at the CBSE Cluster Tennis Tournament. She also holds an impressive ITF Junior World Ranking of 2749, marking her as a promising contender on the international stage.

Chalk Dust & Dreams- When Teachers Write on Hearts, Not Boards...

A Child's Plea

Don't mould my dreams with hands of fear,
Don't whisper what I must hold dear.
The sky I see is not your dawn,
Let me find the path I'll walk upon.
You gave me roots, so strong, so deep,
But now, it's wings I wish to keep.
Your love should be my guiding light,
Not shadows telling wrong from right.
I'll stumble once, I'll rise again,
Each fall will wash away my pain.
If I must climb, let it be mine
The mountain chosen by design.
Be near, not near enough to steer,
Just lend your strength when I feel fear.
Your faith will be my steady flame,
Your trust, the echo of my name.
So hold my heart, but free my mind,
The world is vast
I'll seek, I'll find.
Don't write my tale, just turn the page,
And watch me grow beyond the cage.

Rabia Wasi

English Teacher

DARING TO DREAM BEYOND BLUE

I still remember sitting in my classroom, staring at a blackboard filled with numbers, I couldn't make sense of. Mathematics was my greatest nightmare during my school years. No matter how hard I tried, the numbers refused to dance in harmony. While my friends solved equations with ease, I often sat there feeling lost, like a single grey cloud in an otherwise blue sky. One day, my teacher noticed my frustration and gently said, "Maybe you're trying to see the sky only in one colour. Try seeing it in your own." Those words confused me at first, but as I grew older, I began to understand. She wasn't talking about maths or colours, she was talking about life. I had been trying to see things the way others did, forcing myself to fit into their version of success, instead of painting my own. That day became the first brushstroke on my journey of self-discovery. I realised that not everyone's sky has to be blue, mine could be any hue I desired. Everyone has their own choice to colour their sky as their own. For some, it's a vibrant yellow of confidence; for others, it's the calm lavender of peace or the deep maroon of determination. The shade doesn't matter, what matters is that it belongs to you. In life, people will often tell you what is "right" or what is "wrong", what is "normal" or what is not, what you should do or what you shouldn't do. But if you let others choose your colours, your sky will never feel truly yours. To colour your own sky is to embrace your uniqueness, to find beauty in what sets you apart. It is to say, "I am not afraid to think differently, to dream differently, to live differently." The sky, much like life, changes every day. Some days are bright and golden; others are filled with storms and shadows. But even on the darkest days, the power to repaint your sky lies in your hands. You can fill it again with the colours of courage, hope, and renewal. So, whenever you feel uncertain or out of place, remember this, the sky above is not a fixed canvas. It waits patiently for you to choose your own colours. Whether your sky is pink, green, silver, or a thousand shades in between, let it reflect your dreams and your individuality. Because the world doesn't need more people who colour inside the lines, it needs dreamers who dare to imagine a sky that's entirely their own.

Chhavi Arora

English Teacher

Mathematics: The Language of Logic and Beauty

Mathematics is often perceived as a subject of rigid rules and endless calculations, but in truth, it is far more profound. It is a language — precise, universal, and beautiful — through which the universe expresses its deepest truths. From the symmetry of a snowflake to the orbits of planets, mathematics forms the invisible framework that governs everything we see and experience.

At its heart, mathematics is the study of patterns and relationships. The same principles that describe the growth of a plant can also model the rise and fall of economies or the spread of a virus. Whether it's geometry shaping the structures of architecture, algebra driving computer algorithms, or statistics guiding scientific discovery, mathematics remains the silent architect of progress.

In today's world, its relevance has grown even stronger. Artificial intelligence, data science, cryptography, and biotechnology — all rely on mathematical foundations. Every innovation we admire, from space exploration to digital communication, stands upon centuries of mathematical thought. What once began as abstract reasoning on parchment now powers the technologies that define our era.

Yet, beyond its applications, mathematics holds a timeless intellectual beauty. There is elegance in a well-crafted proof, harmony in a geometric pattern, and satisfaction in the certainty of a solved problem. Mathematician Bertrand Russell once described mathematics as possessing “a cold and austere beauty, like that of sculpture.” Indeed, it appeals not only to the mind but also to the aesthetic sense of order and perfection.

Studying mathematics also shapes the way we think. It trains the mind to reason logically, to question assumptions, and to seek clarity amid complexity. In a world often clouded by uncertainty, mathematics offers something rare — the assurance that truth, once proven, remains unchanging.

So, the next time one wonders why mathematics matters, remember this: it is not merely a subject to be studied, but a way of understanding the world — logical, elegant, and infinite in its scope. Mathematics is, quite simply, the poetry of reason.

The Magic of Science: It's More Than Just Formulas

Hello students, it's great to have this chance to share a few thoughts with you all through our school magazine. As your science teacher, I often hear students say, "I'm not a science person," and I want to share with you why I believe that's a myth. You see, science isn't just about memorizing formulas and facts; it's about a creative and curious way of looking at the world around us.

Think about the process of science itself. It's a creative endeavor, much like an artist creating a masterpiece or a chef putting together a new recipe. We take different pieces of information—observations, questions, data—and arrange them in new and useful ways to understand how things work. When you design an experiment for a science fair, you're not just following a recipe; you're creating something new. You're a scientist, and that means you're a creator.

Science is about more than just the lab. It's in the technology we use every day, the medical breakthroughs that keep us healthy, and the environmental solutions that protect our planet. When we look up at the stars, it's science that helps us understand our universe. When we use our smartphones, it's science that makes them work. It's a field that constantly requires new ideas and innovative thinking, and that's where you come in.

My goal as your teacher is not just to teach you facts but to ignite that spark of creativity and curiosity within you. I want to show you the magic in the mundane—the science behind a buzzing bee, the physics of a basketball's flight, or the chemistry of a cooking recipe.

So, the next time you're struggling with a tricky concept, remember that you're not just a student trying to pass a test. You're a budding scientist and a creator. Stay curious, ask questions, and know that you have the potential to make some incredible discoveries of your own, both in the classroom and in the world beyond.

स्नेह-सूत्र: हिंदी व्याकरण की मीठी डोर

मैडम की नज़र पड़ी, ऐसा हुआ संयोग,
हिंदी की व्याकरण ने, कर दिया मनोयोग।
पहले तो यह लगती थी, जैसे कठिन समास,
अब तो लगता है, है इसमें प्रेम का वास।

पहले हर क्रिया-विशेषण में, दिखता था बस ड
मैडम की नर्मी से अब, धीमा होता स्वर।
मैडम की बिंदी लगती, जैसे कोई तारा,
हिंदी का हर अक्षर, बन गया है प्यारा।

संधि-विच्छेद करने में, दिमाग होता था ठंडा,
पर अब हर वर्णमाला का, लहराता है झंडा।
हिंदी वाली मैडम ने, ऐसे सिखाई रीत,
जैसे कोई मधुर गान, जैसे कोई मीठा गीत।

पहले कारक के भेद भी, लगते थे अजीब,
आज मैडम की कृपा से, हो गया मैं खुशनसीब।
वचन और लिंग की शुद्धि, अब तो है आसान,
मैडम ने बना दी हिंदी, मेरी सबसे बड़ी पहचान।

उपसर्ग और प्रत्यय में, अब न कोई शंका,
हर वाक्य लगता है अब, जैसे बजता हो डंका।
शुद्ध वर्तनी से मेरा, अब तो है सरोकार,
हर लोकोक्ति में छिपा, जैसे कोई सार।

अब मैडम पूछें, 'कहाँ है विराम?'
झट से लगाता हूँ, जहाँ हो उसका मुकाम।
तत्सम-तद्वय का अंतर, अब मैं हूँ जानता,
मैडम के हर नियम को, अब तो हूँ मानता।

हर मुहावरा अब लगता है, भाषा की सजावट
हिंदी भाषा के प्रति मेरी बढ़ रही है चाहत।
मैडम! आपके ज्ञान ने, किया मुझ पर राज,
इसलिए हिंदी से मुझे बहुत लगाव है आज।

ChatGPT-Defriended

It was the start of the session, class II was full of life. One of the many laughing faces was Ken. The class teacher was none other than their math teacher. Although she was ^{very} strict but was friendly with the students. The first class of the first day was maths. The teacher introduced the new concept of factors and multiples. It was so difficult that Ken almost lost hope with maths for the whole session. The class ended with a warm welcome to all the students by the teachers and few questions for homework. The rest of the day went well. After the dispersal Ken returned home, changed and went directly to play. It was already late evening when his friends came down to play and he realised that he had homework to do. He sure didn't want to embarrass himself in front of the class, so he asked his friends, "Hey could anyone ^{of you} lend me your Maths homework notebook, I still haven't completed those question yet!" All of his friends put down his request and asked him to complete it on his own because he must practice questions to master the concept. Ken was very angry with his friends and challenged them about answering all the questions correctly. He ran back home and saw his brother downloading pictures of

INKfluence- From Young Minds to Lasting Impressions

beautiful landscapes for his project. He went there curiously and asked, "Where are you downloading these pictures from? You don't usually get such nice pictures even after searching the internet for an hour." "It's easy, just ask chatGPT to do it for you. It is available at your service anytime. It offers the best solution to your problems, but you must use it wisely," replied his brother. Ken was ^{now} already planning something, which according to him was very wise. He used ChatGPT to complete his homework. The next day in the classroom, the teacher praised him for getting all the questions correct. Ken's friends were very happy for him. Ken continued copying homework from ChatGPT on a regular basis receiving multiple praises at school. His teachers were very happy with his progress. Days passed and it was finally time for the weekly examinations. Ken performed poorly, especially in maths. His teachers were very shocked seeing his result. It was poor despite his continued progress. When they questioned him about it, he started crying and told them how he had copied his homework and assignment from ChatGPT and couldn't understand the concepts, his teacher said "You used ChatGPT to do your assignments,

which wasn't wise at all. It was foolish of you to make friends with ChatGPT and ignoring the suggestions of your true friends. AI was introduced to this world to help us humans to work effectively and faster but some people completely rely on it which is very wrong. Ken realised that ChatGPT was not his friend at all and shall never be.

Moral: True friends don't just give you answers - they guide you to grow. While AI can be a helpful tool, relying on it blindly can keep you from learning. Use AI wisely but never forget the value of real effort.

Shine on Music

When the world feels dark and small,
and you're tired of it all,
close your eyes, just breath and know,
There's a light inside you that'll grow.

Shine on, shine on, don't let go,
Even when the storm winds blow...

You're the sun after the rain,
You'll find joy beyond pain.
Dreams may fall but rise again,
Every tear will wash the pain.

Look above, the stars still glow, They're whispering "You're not alone."

Shine on, shine on, let it show your heart's brighter than you know
Through the, your soul will say "I will shine my own way!"

BOOKS ARE OUR BEST FRIENDS

Books are considered our best friend because they offer unwavering companionship, a vast repository of knowledge, and an endless source of inspiration, entertainment and guidance without ever betraying or deceiving us. Just as a good friend shares experiences, and helps us through life's challenges, books also provide insights into new cultures, concepts, and historical events, enriching our mind and broadening our perspectives. For example, reading a biography of a great leader like Mahatma Gandhi can provide motivation and teach us valuable life lessons, just as a trusted friend would.

School....

School is cool, a place to learn,
with every day, there's a new turn.
Books and pencils, friends to meet,
learning together, oh so sweet!

We read and write
and sometimes play
School is fun in every way.

With teachers kind and friends

So TRUE.....

Every day is something new...

MUSIC ~ My Escape From Reality

"One good thing about music is that when it hits you, you feel no pain." ~ Bob Marley

Many people use music not just to entertain themselves but to cope with the difficulties life throws at them. Music helps one to distract themselves from reality. It is the symphony which untangles the web of closed thoughts in their heads. A bad day, a sport mood or hurt feelings. A simple melody is a cure to all. Listening on a pair of headphones is scientifically proven to reduce rising stress levels. Music is what makes you step out of reality and slip in your own little world; it touches a part of your soul and leaves an imprint.

Whenever thrown into a tough situation, escaping to music changes everything. It converts one's dull blue mood into the pinks and yellows of optimism. The nervousness is fabricated into blooming motivation and that stubborn zeal to keep going and never look back.

We may live across borders, but music is a language we all understand. With it you can bring one song to a thousand people, and they will sing back with a thousand different reasons.

★★ उड़ान ★★ !!

विशाल नीले आकाश के नीचे,
बुने जा रहे हैं सपनों के जाल।
हर पल एक नवीन आशा।
मन की नई प्रीति वे रचा हर हाल।
चाहे सूरज डले, या तारे छिप जायें।
साहस की लौ फिर भी राह दिखाए।
हर पल का बस यही संदेश,
पढ़ाओ स्वयं को, निर्भीक होकर आज।
बुलंदी उंची हो तुम्हारी उड़ान,
जितना उंच यह गगन है,
देखो इस यमपूरी धस को एक सम दृष्टि से।
सिंचित करो इस धुल्लि को समानता के प्रेम-जल से।
जाति का फेद हो, धर्म का वैशेष्य काले-गोरे रंग का द्वेष।
इन ज्वालाओं से जलते संसार में,
इतने शीतल बबो, मितनी मद बघार है।
नये राधों से वर्तमान का रूप संवारे,
नवीन दुनिया से जीवन के रंग उभारो।
नये राग को एक नवन स्वर दो।
भाषा को अछूते अक्षर दो।
इस युग की नई सृति रचते मे,
इतने मौलिक बबो, जितना स्वयं सृजन है!

WORDS

*If only words could say
everything we feel,
It wouldn't take forever,
For broken hearts to heal,
Trembling lips,
Moist eyes,
Hollow laughter,
Silent cries,
Supportive hand,
Warm embrace,
Ardent smile,
Reassuring face,
Firm handshake,
Idle stare,
Sweaty palms,
Eyes that care,
They tell you more,
Than words could ever say,
I would go on and on,
But words get in my way.*

कलियुग का आदान

हैं यहाँ हमने 'कलियुग' में
गोएँ यहाँ यहाँ के
लोकोँ और लोकोँ के पर,
आन भुवन के लोकोँ पर,
को पत्र - पत्र से लोकोँ पर,
और काम कला पर यहाँ पर
अदारी पर लोकोँ पर,
पर लोकोँ पर लोकोँ पर.

?

पर यहाँ यहाँ के लोकोँ पर,
लुकोँ लोकोँ के लोकोँ पर,

लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के

लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के
लोकोँ के लोकोँ लोकोँ के

पर ये लोकोँ लोकोँ के लोकोँ पर,
लोकोँ के लोकोँ लोकोँ के लोकोँ पर,
लोकोँ के लोकोँ लोकोँ के लोकोँ पर,
लोकोँ के लोकोँ लोकोँ के लोकोँ पर,
लोकोँ के लोकोँ लोकोँ के लोकोँ पर,
लोकोँ के लोकोँ लोकोँ के लोकोँ पर,
लोकोँ के लोकोँ लोकोँ के लोकोँ पर,
लोकोँ के लोकोँ लोकोँ के लोकोँ पर,
लोकोँ के लोकोँ लोकोँ के लोकोँ पर,
लोकोँ के लोकोँ लोकोँ के लोकोँ पर,

सपनों की उड़ान

★ क्या सपना भी उड़ने में सक्षम है जो उड़ानों में सक्षम और
विल में सक्षम लोकोँ लोकोँ के लोकोँ पर?

हर इंसान के जीवन में कुछ सपने होते हैं - कुछ छोटे, कुछ बड़े।
यही सपने हमें अपने बचने की सक्षम बड़ी फैला देते हैं। इन सपनों
को सच करने के लिए हमें केवल कल्पना ही नहीं, बल्कि उष्मक
मैलन, अदर निबलन और अदर लोकोँ की लोकोँ होती हैं।

जो लोग सपनों पर सक्षम इरोसा करते हैं, सपनों धुल में
अपन रहते हैं, वही इस दुनिया में लोकोँ इरोसा स्थाने हैं। वे भानने
हैं कि उड़ान करने में बदले पंखों को सजावत करना किना,
अपनी हैं।

जैसे कि महान वैज्ञानिक और प्रेरणास्रोत डॉ. स. पी. जे. अदर
कलन ने कहा था: "सपना वह लोकोँ जो हमें सक्षम बना देते हैं,
सपना वह है जो हमें सक्षम नहीं देता।" यह पंक्ति हमें याद दिलाती
है कि सपनों सपना वह है जिसके लिए हम लगातार प्रयास करते
हैं और हर चुनौती की गले लगाते हैं।

अगर हम अपने लोकोँ पर ध्यान केंद्रित करें और सपनास्रोतों से
लगातार सम्मलन से सक्षम, तो कोई भी गलत हमारे इर
नहीं रह सकती। दसमल, हर लोकोँ हमें तीव्र के बलन,
सक्षम सजावत करती हैं।

इसलिए, अपने सपनों को पिछले से निकालकर आनाक उड़ान
दी। आसमान बहुत बड़ा है और आसमान केवल हमारे मन में है।

आज का घनः बहुमुखी प्रतिभा का घनी

क्या आपने कभी सोचा है कि आज का छात्र कौन है? वह, जो सिर्फ टेबल और किताबों की दुनिया तक सीमित रहने वाला नहीं है वह एक सपनों की दुनिया में उड़ने वाला, बहुमुखी प्रतिभा का धनी और भविष्य की ओर बढ़ने वाला एक आनंद विद्यार्थी होता है। आज के विद्यार्थी की दुनिया कक्षा की दीवारों से बहुत आगे निकल चुकी है। वह सट्टा पाठ्यक्रम को पढ़ने वाला नहीं, बल्कि आज की भावना को पढ़ने वाला है। तकनीक उसके लिए खिलौना नहीं, बल्कि शक्तिशाली उपकरण है, जिसका उपयोग वह सीखने, रचनात्मकता दिखाने और दुनिया से दुनिया से जुड़ने के लिए करता है। स्कूल के मैदान से उसका जोश है। वह कक्षा के पर उसकी अतिरिक्त अभिरुचि, क्लब, सामाजिक गतिविधियों से उसकी सक्रिय भागीदारी है या पर्यावरण के प्रति उसकी गहरी चिंता - आज वह एक हर चीज में अपनी छाप छोड़ रहा है। उसकी खोजें बढ़ी हैं और उसके अपने अस्सल भी बढ़े। वह केवल एक अच्छे नौकरीवादी चाहता, बल्कि वह दुनिया में सकारात्मक बदलाव लाना चाहता है। वह समस्याओं से डरता है और उनका समाधान ढूँढ़ने की हिम्मत रखता है। अगर उस परसफाई लक्ष्य के पीछे चुनौतियाँ भी कम नहीं हैं। समस्या का समाधान करना, हर चीज में खतरा बनने का अत्यधिक जागरूकता की शक्ति, और उसका संतुलन बनाना। उसे सीखना होता कि वह 'सफल' है। वह अपने लक्ष्य है, और वह सकारात्मक उर्जा के साथ फिर से आगे बढ़ता है। तो, अगर मैं अपने मन से पूछूँ, क्या इस छात्र को देखकर - वह आपका भविष्य है। जो इस अर्थ में सकारात्मक होगा, उसका सकारण बनना होगा और उसे सही दिशा देनी होगी। क्योंकि आज का छात्र केवल पढ़ नहीं है, वह कक्षा की दुनिया की बाढ़ रहा है।

Emotions

Sometimes I am happy,
And sometimes sad,
Sometimes I am calm and chill,
And at others I'm mad.

In the morning I was over the moon,
Oh feeling blue in the afternoon,
I was jumping with joy in the evening,
Humming a happy and cheerful tune!

I feel gratitude for all my teachers,
and love for my parents.
My positive feelings unite my spirit,
making me an active, loving and well behaved child.

These things make me calm -
A smile from a friend,
Sleepy bedtime stories,
with a very happy end.

बचपन के हसीन दिन

वो गुलियाँ मैं ब्रागला, मिट्टी में खेलना,
आँखों में नन्हे-नन्हे सपने खेलना।
न कोई तलाश, न दुनिया के झमेले।
बस टॉफी, खिलौने और रंगीन मैले।

न माँ की डाँट का डर कभी सतारा था,
न स्कूल के होमवर्क से जी धरारा था।
साइकिल की रेंस और बारिश की बूँद,
कागज़ की नाव और दोस्तों की धुन।

छात्र हैं वो पल, जब दुखी की कहानियाँ थीं,
हर खिलौने में छिपी अनोखी निशानियाँ थीं।
पोपल की छाँव तले वो बेमिऊ दोपहर,
न आती थी तब कल की कोई खबर।

वो हर रोज नए खेलों का आविष्कार करना,
कौटी सी बात पर कपड़ा और प्यार से मजाना।
वो क-वज्र खेलना, वो मासूम बचपन सारा,
शो जेबल की सबसे अनमोल पूजा हमारी।

मगर, अब वो दिन कहाँ? कहाँ वो सारी हैं?
बचपन की वो बातें, अब यूँ मिलती नहीं।
कल न कहाँ लौके हमें सड़ा कर दिया।
जैसे बुझियों के मैले को जुड़ा कर दिया।

कक्षा! फिर से लौट आओ प्यारा सा समय
जहाँ हर दिन था सपनों से भरा आँगन निर्भय।
बस एक पल को मिल जाए वो खोया किनारा,
जहाँ मासूमियत की धुन से जाता था दिन हमारा।
