## CLASS VI – VIII

NEPS/ PAR.CIR./2025-26/36

17.01.2026

Dear Parents,

Greetings from the school!

In accordance with the guidelines of the **Central Board of Secondary Education (CBSE)** and in alignment with the **National Education Policy (NEP) 2020**, the school is introducing Skill Education (Vocational Education) through NCERT's **Kaushal Bodh for students of Classes VI to VIII**.

This initiative aims to provide students with early exposure to vocational skills through a hands-on, experiential approach, encouraging learning by doing. Students will engage in practical tasks that foster creativity, problem-solving, collaboration, and real-life application of learning.

During the current academic session, students will participate in a few selected activities from the first project as an introductory phase. A brief outline of the activities planned is given below:

- **Class VI:** Introduction to a School Kitchen Garden, including simple activities such as sowing seeds and understanding basic plant care.
- **Class VII:** Exposure to Plant Nursery practices, focusing on raising plants and understanding nurturing techniques.
- **Class VIII:** Introduction to Hydroponic cultivation, helping students understand the basics of growing plants without soil through simple demonstrations.

The **Kaushal Bodh** initiative will be systematically and comprehensively implemented from the next academic session, with structured projects and extended skill-based learning as prescribed by CBSE.

Students will be guided by teachers during regular school hours, and the emphasis will be on 'hands on' learning by every student.

The Kaushal Bodh text books links are attached herewith for your reference.
