Dear Parents/Students

As per the recommendations made by NEP 2020/NCFSE-2023, CBSE has introduced the option of Mathematics Advance and Science Advance for the students of Class IX from the session 2026-27.

These advance courses will be optional and meant for students who wish to go beyond the standard common syllabus. These courses are designed to challenge students who are academically ready for greater depth in Mathematics and Science.

The school has decided to provide guidance to students opting either Mathematics Advance or Science Advance or both on Saturdays from 08:30 a.m. to 12:00 noon. On second and fourth Saturdays these classes will be held in the online mode, and on the other Saturdays, students will attend classes in school. Attendance during these classes will be mandatory.

Please note that all students will have to appear for school-based common examination of 80 marks in Class IX. In addition, those opting for Advance Course(s) will have to additionally appear for 25 marks (1 hour) examination in the final term at a higher level, based on the prescribed content. Only a notation (The Advanced level has been successfully cleared) will be reflected in the marksheets, if these exams are cleared with 50% or more marks. Marks secured in these courses shall not be considered for promotion to higher class.

Students who are interested in opting Mathematics Advance or Science Advance or both must submit the application signed by parents clearly specifying the name of the course(s) to the class teacher latest by September 15, 2026.

You are requested to explore the syllabus shared in the class groups to make an informed decision.

Warm Regards,

(Mrs. Neerja Bhaskar Anand)
Officiating Principal .
