**Summer Enrichment Work**

Dear Parent,

Greetings!

As the summer vacation begins, it is time for our students to relax, explore, and strengthen their bond with family and friends. Children are naturally curious and creative, and vacations provide the perfect opportunity to nurture these qualities through joyful and meaningful learning experiences.

Keeping this in mind, we have planned engaging summer enrichment activities that encourage students to think creatively, observe the world around them, and learn in enjoyable ways.

This year's Summer Enrichment work focuses on exploring the progress made towards achieving various Sustainable Development Goals (SDGs) in India and comparing them with initiatives taken in another country. Through this, students will develop awareness, empathy, and global understanding.

**MERAKI – an Exhibition of Scholastic and Co-scholastic subjects**, scheduled in July, will feature our students' work and will undoubtedly be a celebration of creativity and cultural expression.

The school will reopen on **Wednesday, 1st July 2026**. The Summer Enrichment Projects will be shared via ERP. Students are requested to complete and submit their projects within the first week of July.

We wish you and your family a joyful, safe, and enriching summer break filled with happy moments and meaningful learning.

Warm Regards,

Neelu Singh  
Officiating Principal  
Ridge Valley School
