Youth Climate Diplomacy Program

Dear Parents,

Greetings!

We are pleased to inform you of an exciting opportunity for the students of Grades 9-12: the Youth Climate Diplomacy Program, an initiative by **1M1B**. This four-month program empowers students to lead global climate action.

This program will allow students to select an SDG climate project and collaborate with a local underserved school, execute campus awareness campaigns, implement tech-driven sustainable solutions and master storytelling and social media advocacy.

The program culminates at the 10th 1M1B Impact Summit at the United Nations in Geneva from 19-20 November 2026. **Registration closes on July 5 and is limited to a maximum of 5 students.** If the applications exceed the available slots, a shortlisting process will be conducted. The selection criteria will be shared with all registered applicants after the registration window closes.

Below is the link to the brochure with more information about the program:

We strongly urge you to encourage your ward to participate in this transformative global platform to help them build vital future-ready skills.

To register, please find the link to the form below:

For any further clarifications, please reach out to the class teacher.

Warm regards,

Ms. Neelu Singh
Principal
Ridge Valley School
