Participation in Changemakers World Cup 2026

Dear Parents,

We are pleased to share that our school is participating in the Changemakers World Cup 2026, an initiative by 1M1B (One Million for One Billion), aimed at empowering students to become active problem-solvers and responsible global citizens.

Participation in this program is mandatory for all students of Grades 6, 7, 8, 9, and 11.

This program provides a unique platform where students identify real-world environmental or social issues, take measurable action, and create meaningful impact through a structured process.

Program Overview:

Students will work through three progressive missions:

- Mission 1: Mindset Change (The Pledge) – Students identify a problem and commit to solving it.
- Mission 2: Behaviour Change (Action) – Students take measurable steps to address the problem and document results.
- Mission 3: System Change – Students present their findings and seek long-term solutions or commitments from authorities/institutions.

Implementation in School:**1. Orientation Session:**

The orientation session has been conducted in school where Students were introduced to the program and explained the concept and objectives of the Changemakers World Cup.

2. Track Selection:

Students will choose one track based on their interest and continue working on it throughout all three missions. The available tracks include:

- Cut the Waste (#NoPlastic)
- Save Every Drop (#StopTheDrip)
- Eat Real (#FixYourPlate)
- Wear It Again (#DripDontDump)
- Switch Off E-Waste (#EWasteOff)

3. Changemaker Pledge:
Students will participate in a group pledge activity, committing to take action for positive change. The pledge will be recorded and shared with the organizers.
4. Mission 1 Commencement:
Students will begin by writing a short commitment (approx. 150 words) identifying the problem they wish to address and their plan of action.
5. Registration:
Students will register individually on the official Changemakers World Cup website with guidance from school.

This initiative goes beyond classroom learning and encourages students to think critically, act responsibly, and create real-world impact.

We seek your support in motivating your child to actively engage in this enriching learning experience.

Warm regards,

Ms Neelu Singh
Principal
Ridge Valley School
