SUBJECT - Advisory: Preventive Measures for Dengue and H1N1 Protection

Dear Parents,

Greetings!

In view of the rising dengue cases and recent reports of H1N1 cases detected across the Delhi NCR region, the health, safety, and well-being of our students remain our utmost priority. To protect our students and prevent the spread of seasonal illnesses, we request your cooperation with the following directives:

- **Revised Uniform Guidelines (Immediate Effect):** All students are required to wear full-sleeved T-shirts and full-length track pants (formal or house uniform, as per their daily timetable) to school until further notice to minimize skin exposure.
- **Personal Mosquito Protection:** Please apply a child-safe mosquito repellent cream, spray, or attach mosquito patches on your ward's clothing before sending them to school each morning.
- **Health Monitoring at Home:** If your child is feeling unwell or showing symptoms of flu or fever, please do not send them to school. Keeping them at home to rest will support their recovery and help prevent the spread of infections.
- **Campus Preventive Measures:** The school is taking rigorous preventive measures on campus, including regular fogging and anti-larval treatments. We also urge parents to ensure there is no stagnant water around your home premises.

We appreciate your prompt support and partnership in keeping our school community safe and healthy.

Warm regards,

Neelu Singh
Principal
The DLF School, RVS
