

Shambhu Dayal Global School

Class 5th

SUBJECT

Nature & Nurture

Monthly Activity Report
(April to September)

Symbols of Circuit

Aim

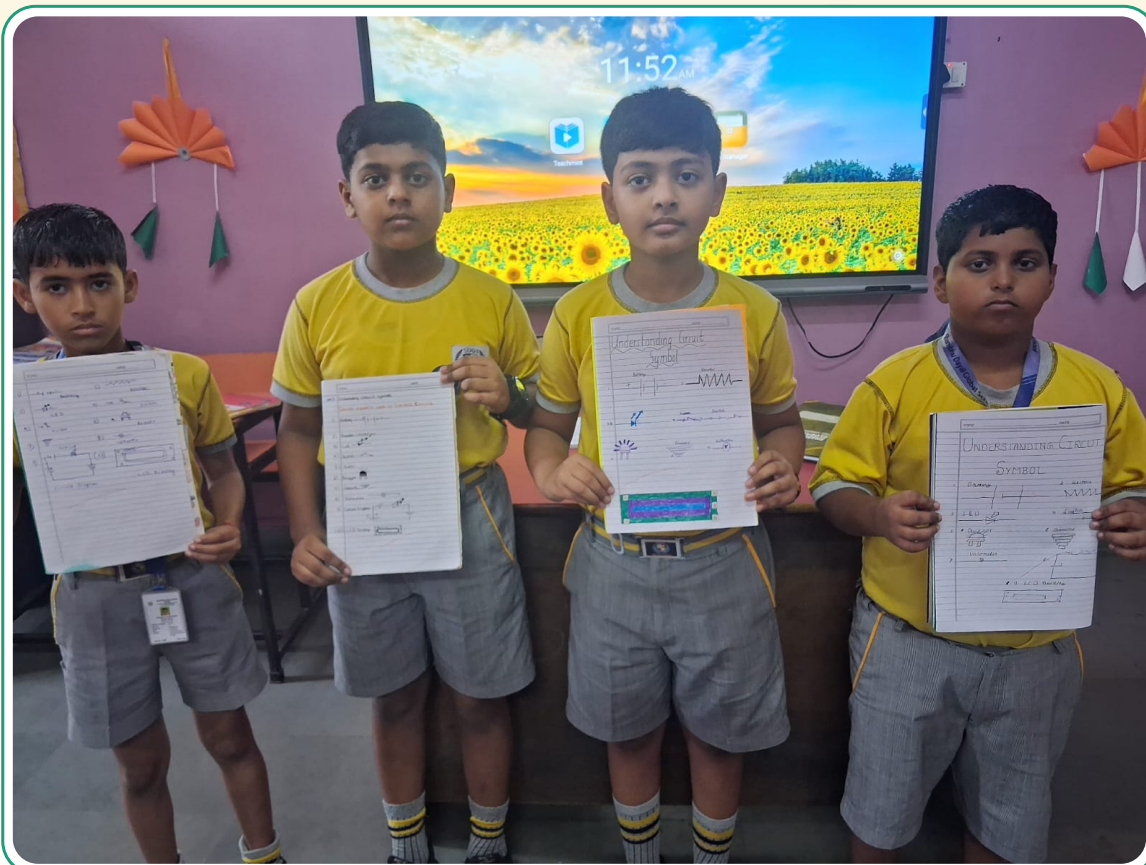

To introduce students to the common symbols used to represent electrical circuits.

Learning Outcome

Students learn to identify and draw basic circuit symbols.

They understand how symbols make circuit diagrams easy to read.

A glimpse of the activity

Components of Circuit

Aim

To help students identify the main components of a simple electrical circuit.

Learning Outcome

Students learn the role of a cell, bulb, switch and wires.

They understand how these components work together to complete a circuit.

A glimpse of the activity

Save & Reuse of Water

Aim

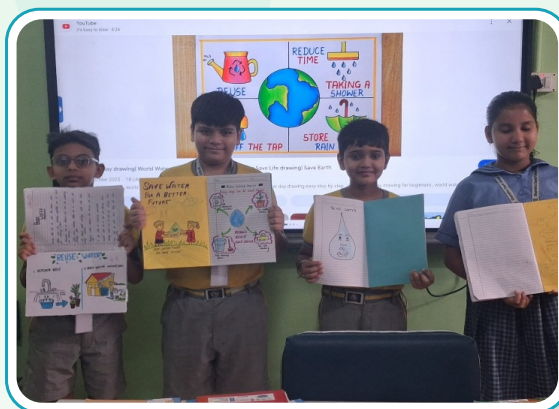

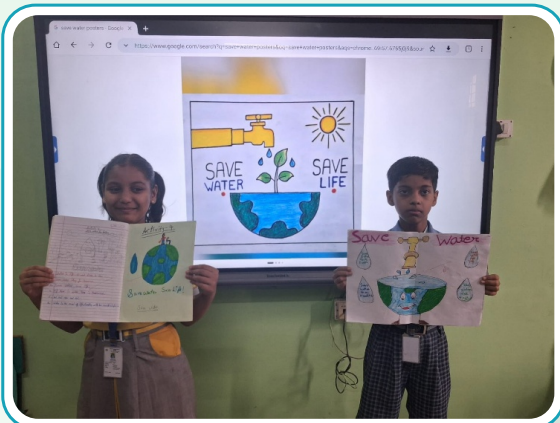

To create awareness about saving water and using it wisely.

Learning Outcome

Students learn simple ways to reduce water wastage and reuse water.

They develop responsible habits for water conservation.

A glimpse of the activity

Learn Commercial Advertisement

Aim

To understand the purpose and basic features of commercial advertisements.

Learning Outcome
