IMPORTANT GUIDELINES REGARDING PREVENTION AND CONTROL OF DENGUE

Dear Parents,

As you are aware, we experience an outbreak of Dengue in the months of September and October every year. We would appreciate your cooperation in making the prevention of dengue a success so as to ensure the good health of our children. Kindly read the guidelines and follow the precautionary measures which are stated below.

Symptoms

- Abrupt onset of fever
- Severe headache
- Aches and pains (eyes pain, typically behind the eyes, muscle, joint or bone pain)
- Nausea, Vomiting
- Loss of appetite
- Feeling tired, restless or irritable
- Rash

Preventive Measures

- Keep water containers covered.
- Wear full sleeves shirt, trousers to avoid mosquito bite
- Ensure that there is no water logging on the roof top.
- Don't let water collect in and around houses.

Note: You are advised not to send your ward to school in case he/ she is suffering from fever.

Stay aware, Stay healthy

Regards

Principal,

Somerville School, Greater NOIDA
