

Our History

We , the members of St. Thomas family, an educational venture of the St. Thomas Orthodox Church Society, Ghaziabad, uphold the motto "**For God and Country.**"

St. Thomas Schools aim to nurture future citizens into independent and compassionate individuals. **St. Thomas School, Indraprastha Yojna, Loni**, began its humble journey in 2018 and has since evolved into a senior secondary school, affiliated to CBSE with a vision to provide affordable, accessible and accountable education to children from all backgrounds, regardless of caste, creed, religion or economic status. With English as the medium of instruction, the school strives to foster a scientific temper, a modern outlook and a love for the motherland, while preserving its culture, heritage and traditions, alongside academic excellence.

Facilities and Activities

The campus of St. Thomas School, Loni, is designed to support both learning and creativity. Spacious smart classrooms, fully equipped science, Maths, and computer laboratories, and a rich library provide strong academic support, while art, music, and various clubs bring out creativity in the students. Sports facilities include courts for basketball, volleyball, badminton, and a football ground, along with specialised activities like Taekwondo and Chess that sharpen discipline and focus. Co-curricular opportunities such as Robotics, leadership programs, and cultural events further enrich creativity and innovation. A safe and caring environment is ensured through reliable transport, medical care, and CCTV monitoring, making the school a place where students can truly thrive.

Kindergarten and Preschool

Separate Kindergarten and Preschool (Kidzone) building with **air-conditioned classrooms, computer lab, indoor & outdoor play arena**, caretakers, and activity rooms. Focused on activity-based learning with special care for the neuro-muscular growth and holistic development of kids.

Let us nurture young minds with knowledge, creativity and care, empowering them to thrive with confidence.

Infrastructure

St. Thomas School, Loni offers modern infrastructure with classrooms, labs, library, sports, auditorium, and digital facilities for holistic learning.

Modern Science, Mathematics and Computer Labs

Well-equipped library for peaceful reading

Dedicated dance, music and art rooms for creativity

Chess and Table Tennis rooms for skill development

Expansive playgrounds and sports facilities

ERP-based digital support for seamless learning

Academics & Curriculum

The institution provides education from foundational stages to higher secondary levels, adhering to a balanced and learner-centric CBSE curriculum. Emphasizing STEM, creative arts and sports, the teaching methodology promotes inquiry, critical thinking and problem-solving. Equal attention is given to science, mathematics, arts and sports, allowing students to develop in every field. Experienced Educators guide learners with dedication to ensure not only academic excellence but also foster moral and spiritual development. This holistic strategy promotes overall growth, equipping students with knowledge, creativity, leadership and confidence to thrive in a fast-changing world.

Education is not just about excelling in academics, but about nurturing creativity, values, and confidence.
