## Subject: Collection of Clean Plastic Waste for Recycle Project

Dear Students,

As part of our **Recycle Awareness Project**, the school is organizing a collection drive for recyclable waste materials. This initiative aims to encourage responsible waste management and promote environmental conservation.

You are requested to bring the following **clean and dry** recyclable items to school:

- Plastic bottles
- Disposable plastic glasses
- Tetra packs
- Newspapers
- Any other small, recyclable plastic items

### Important Instructions:

1. Please ensure that all items are **washed, cleaned, and completely dried** before bringing them.
2. Pack the materials safely in a **bag or box** to avoid spillage or damage.
3. Submit the collected items to your **class teacher** on the assigned day.
4. Do not bring any sharp or hazardous waste.

Your cooperation will help us contribute to a cleaner, greener environment. Let us work together to make our campus more eco-friendly.

**Thank you for your support.**

Regards,

Team VPS
